# Double You-Are-Pea News

Issue 6  
October 2012

## Message from the Editor

Hi everyone,  
Wow, I almost feel like I need to introduce myself again. In the four months I've been away, we have grown and I see many new faces around the office. Hopefully, this edition will introduce the new people to those who feel a bit like me. Also, lots of family news. Please remember to send any exciting news and photographs to either myself or Riana for inclusion in our newsletter. We really want to share in everyone's exciting events. We will have one more letter before the year ends, only a couple of months to go now. Enjoy this edition.

*Caryn*

## News Projects

Congratulations to all concerned for winning some great projects over the last few months. The WDM section won a huge job, thanks to the efforts of Brad and his team, in Wadeville.

Water Resources won two Environmental Flow Classification projects, one in the Letaba and one in the Mvoti.

Our new Wadeville Office

Celebrating the announcement of the Wadeville project

# 2nd Regional African Water Leakage Summit and Workshop 2012

## Cape Town and Midrand

Another successful summit took place at the beginning of September. Well done to all who helped make the events run smoothly.

Thanks to all who participated in the Nelson Mandela day at Tshegofatsong Special School in Mamelodi.

## And it snowed.....

On the 7 August 2012 Takalani reported some snow fall at our offices in Vanderbijlpark.

# Action

WRP competed again in the SAICE annual action cricket event. Though not as successful as last year, fun was had by all. WRP played three games in the social (not so social!) league, winning one and losing two. Besides and injury Dimakatso had and a few (ok maybe a lot of) "no balls" (Caryn) here and there, the team showed great spirit and never gave up.

Ronnie recently returned from another Mineral Show in Denver, United States. One of his pieces was selected as the show stopper display. A lot of interest was shown and Ronnie, as usual, did very successfully at the show.

## Don't forget

You have only two months left to enter any photos or video clips of funny/ spectacular or unique aspects regarding water you may take at work or in your personal time.
